Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **Graphic Exhibits: On Food Conservation at Fairs Expositions** Twenty-two hundred interstate, state, district, and county fairs and a large number of industrial and commercial expositions are held in the United States in the late summer and early autumn of each year. Many of these are already planning exhibits, demonstrations, and contests on food conservation. Many others will doubtless find it possible to perform a service to their country through the promotion of food economy if suggestions and plans on exhibits, demonstrations, and contests are put into their hands. The main purpose of this pamphlet is to provide such material in usable form. A further purpose is to present a few of the important ideas which the Food Administration deems it most desirable at this time to bring to the attention of millions of people who will attend these gatherings. The subjects of immediate importance for treatment in fairs and expositions are - Save the Wheat. Economy in Use of Fats. Canning, Drying, etc. Better Use of Milk. As it is not possible to go into detail in this pamphlet, and as it is desirable to leave the final touches to the ingenuity of those preparing the material, the only attempt at completeness has been confined to the first two subjects, which may be regarded as samples.
