When James Pedersen, DDS graduated from dental school, he knew how to make his own gold castings, build his own porcelain crowns, cast his own partial denture frameworks, weld the fixed bridges together, prepare teeth for crowns and bridges without a chair-side assistant, fabricate full dentures, and pour his own plaster models. Because of his excellent dental education, he knew precisely how all the mechanics of dentistry worked. Dentistry is a multifaceted profession, and in many cases an art form, which also requires extensive medical knowledge, mechanical expertise, manual dexterity, and a kind, gentle, chair-side approach to the patient. He worked standing up for more than thirty-six years. Dental Dilemma is a humorous and pragmatic analysis of the dental profession and its metamorphosis into a highly competitive business. It tells the story of the authors adventures, experiences, and encounters with many California Dental HMO providers.
