### ***Reviews***

*A fresh e book with an all new viewpoint. It is really simplistic but unexpected situations in the 50 % from the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Look at those sacks pictured at the top of this page. You buy five bushels of each crop as bread - to live; but your Profit in Wheat depends on the brains you put into the business. The factors which control grain prices are easy to understand and to follow; when you begin to study them they will prove far more interesting than anything else you ever took up. for they are the very life of the world. Wheat Classification Winter wheat is sown in the Southern belt during September and October; its harvest begins in Texas as early as the latter part of May. Spring wheat is sown in April; harvest begins in the Dakotas about August. Market quotations are usually made in May, July, September, and December wheat, because these are the months in which most of this cereal is actually delivered.
